PHILIP MORRIS INCORPORATED

Law Department Memorandum
Richmond, Virginia

TO: Ken Podraza Date: 5 March 1984

FROM: G. Inskeep

SUBJECT: Dual Flavor Release System/PM 1201

Your and Dr. Houminer's disclosure D193 has been assigned the PM number given above. You answered my inquiry, saying CR numbers were available for most of the products in it. Could you please identify the appropriate CR's?

Are any smoking evaluations, informal or otherwise, available for any of the products? We need as much as possible of such information to reinforce the findings of Example VII for preparation of a patent application.
